

## Invitation

Dear Sir/Madam,

The International Occupational Therapy Conference is an academic event of occupational therapy in rehabilitation and is organized by the Hong Kong Institute of Occupational Therapy and co-organized by partners from mainland China. The conference is held every two years with the aim to promote international communication occupational therapy, improve the technology of occupational therapy, and accelerate the development of occupational therapy in China.

The 2020 International Occupational Therapy Conference, with the theme of 'innovation, integration, intelligence and life', will be jointly organized by the Hong Kong Institute of Occupational Therapy, Chengdu Second People's Hospital, Chengdu Medical Rehabilitation Association, and the Occupational Therapists Branch of Sichuan Rehabilitation Therapists Association and will be held in Chengdu, Sichuan province in April 2020. This is the sixth International Occupational Therapy Conference after 2005 in Qingdao, 2008 in Guangzhou, 2012 in Hong Kong, 2015 in Shenzhen, 2018 in Kunming, which has far-reaching significance for promoting and facilitating the development of occupational therapy in mainland China.

This conference will cover multiple topics, including OT in neurological rehabilitation, trauma rehabilitation, spinal cord injury rehabilitation, acute rehabilitation, community-based rehabilitation and vocational rehabilitation; OT for children and elderly; OT innovation, quality control, education, culture and values. Several foreign and domestic occupational therapy experts will be invited to share their fantastic academic reports. The conference will provide a communication platform for occupational therapists at home and abroad to learn about the frontier theory, technology and practice in the field of occupational therapy in different districts, and to explore the occupational treatment patterns that suit and meet the needs of Chinese society, to promote the sustainable development of the profession,

and to seek development strategies commonly for Chinese occupational therapy. It is believed to be helpful to promote the occupational therapy in China towards to the world-class level.

Here, on behalf of the organizing committee of this conference, we sincerely invite you to actively participate in the conference to share your experience and research about above topics. Let us work together to contribute to the vigorous development of rehabilitation and occupational therapy. We hope more peers and young reserve forces can be guided and get improved from the active communication on this platform.

We look forward to your participation and thank you for your attention and support to this conference!
